

1. Perform sorting of an array in descending order.(Using JavaScript)

PROGRAM

```
<!DOCTYPE html>
```

```
<html>
```

```
<body>
```

```
<h2>JavaScript Arrays</h2>
```

```
<p>The Array.sort() method sorts the elements of an array.</p>
```

```
<p id="demo"></p>
```

```
<script>
```

```
const points = [40, 100, 1, 5, 25, 2];
```

```
points.sort(function(a, b){return b-a});
```

```
document.getElementById("demo").innerHTML = points;
```

```
</script>
```

```
</body>
```

```
</html>
```
